[EPA-HQ-OGC-2022-0969; FRL-10517-01-OGC]

### Proposed Consent Decree, Clean Air Act Citizen Suit

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of proposed consent decree; request for public comment.

**SUMMARY:** In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Center for Biological Diversity, et al. v. Regan*, No. 3:22-cv-00052-WHO (N.D. Cal.). On January 5, 2022, Plaintiffs Center for Biological Diversity and Center for Environmental Health filed a complaint in the United States District Court for the Northern District of California. On April 22, 2022, Plaintiffs filed an amended complaint. Plaintiffs alleged that the Environmental Protection Agency (EPA or the Agency) failed to perform certain non-discretionary duties in accordance with the Act to timely determine the attainment status of certain areas with respect to the 2008 ozone National Ambient Air Quality Standards (NAAQS). The proposed consent decree would establish deadlines for EPA to sign notices of final rulemaking.

**DATES:** Written comments on the proposed consent decree must be received by [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2022-0969, online at <https://www.regulations.gov> (EPA's preferred method). Follow the online instructions for submitting comments.

*Instructions:* All submissions received must include the Docket ID number for this action.

Comments received may be posted without change to <https://www.regulations.gov/>, including any personal information provided. For detailed instructions on sending comments and additional information on the rulemaking process, see the "Additional Information about Commenting on the Proposed Consent Decree" heading under the **SUPPLEMENTARY INFORMATION**

section of this document.

**SUPPLEMENTARY INFORMATION:**

**I. Obtaining a Copy of the Proposed Consent Decree**

The official public docket for this action (identified by Docket ID No. EPA-HQ-OGC-2022-0969) contains a copy of the proposed consent decree. The official public docket is available for public viewing at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave., NW, Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

The electronic version of the public docket for this action contains a copy of the proposed consent decree, and is available through <https://www.regulations.gov>. You may use <https://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select “search.”

**II. Additional Information about the Proposed Consent Decree**

The proposed consent decree would establish deadlines for EPA to take action pursuant to CAA section 110(k) on certain state implementation plan (SIP) submissions by the State of California and the State of Texas. First, on September 23, 2021, the State of California failed to make a SIP submission for the San Diego County area for Reasonably Available Control Technology (RACT) measures not tied to attainment for the 2008 ozone NAAQS. The proposed

consent decree would require EPA to sign a notice issuing a finding of failure to submit for this SIP submission no later than April 30, 2023.

Second, on November 13, 2020, EPA determined that submittals for the Dallas-Fort Worth area containing the SIP elements required for the “Serious” nonattainment classification with respect to the 2008 ozone NAAQS were administratively complete. Thus, EPA had a duty to take final action to approve, disapprove, or conditionally approve or disapprove, in whole or in part, the SIP submittals by November 13, 2021. On September 16, 2022, and October 3, 2022, EPA approved Texas’ SIP revisions for the emissions inventory and nonattainment new source review elements. (87 FR 56891; 87 FR 59697). The proposed consent decree would require EPA to sign a notice of final rulemaking on the remaining SIP elements by September 30, 2023.

Third, on February 22, 2019, EPA determined that submittal for the Eastern Kern area containing the SIP element, Rule 425.3, Portland cement kilns, was administratively complete. Thus, EPA had a duty to take final action to approve, disapprove, or conditionally approve or disapprove, in whole or in part, the SIP submittal by February 22, 2020. The proposed consent decree would require EPA to sign a notice of final rulemaking on the remaining SIP element by June 30, 2023.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

**III. Additional Information about Commenting on the Proposed Consent Decree**  
Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2022-0969, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. EPA may publish any comment received to its public docket. Do not submit to EPA’s

docket at <https://www.regulations.gov> any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For additional information about submitting information identified as CBI, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document. Note that written comments containing CBI and submitted by mail may be delayed and deliveries or couriers will be received by scheduled appointment only.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked “late.” EPA is not required to consider these late comments.
